DECEMBER 2024

MILESTONE 1

Children's Day was a joyous occasion that brought a lot of happiness to everyone in school.

MILESTONE 2

The highly engaging and innovative project day, club fest and Art Expo was held on 5th December, 2024.

Children's Day

"Children are like buds in a garden and should be carefully and lovingly nurtured, as they are the future of our nation and the citizens of tomorrow" - Pandit Jawaharlal Nehru.

TGWS celebrated Children's Day on the 13th & 14th of November, 2024 with fun activities, games, and teacher performances. It was a joyous occasion that brought great delight to everyone in the school assembly hall. Our students enjoyed a lively day with joyful songs and dances, by teachers, spreading smiles everywhere. Some students even dressed up as Chacha Nehru, complete with his iconic rose and cap, adding a special touch to the celebration. Surprise games made the day even more memorable, bringing endless fun and laughter to all. Take away from the event was the message "Make the most of every opportunity and appreciate our parents' and teachers' hard work".

TGWS wishes all children to have dreams as big as their imaginations and the courage to chase them.

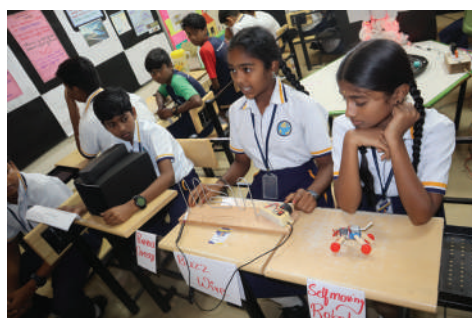

Project Day

The GeeKay World School (TGWS) hosted a highly engaging and informative Project Day, Club Fest & Art Expo on 5th December, 2024.

Our Kindergarten Project Day, 'EXPOSITIO 2024', was fun and educational. Each class had a special theme: Ocean Wonders, Desert Animals, Community Helpers, and Fruits & Vegetables. Students presented models, drawings, and facts about ocean and desert animals, showing their creativity and knowledge. They dressed up as doctors, firefighters, and police officers, role-playing their importance. A colourful display of fruits and vegetables highlighted their health benefits, with students reciting rhymes. Parents and visitors appreciated the children's enthusiasm, making learning enjoyable and interactive.

The Primary School Project day, 'INNOV8' showcased the students' creative and in-depth exploration of various topics, including the evolution of communication, fashion, medicine, transport, utensils, sports, martial arts, music, games, dance, farm folk revival, pixel vision, and woman empowerment. The students presented their projects using various media, including charts, models, art, and games. Each project highlighted various aspects of the topic and its evolution over time. The intricate

details and thoughtful presentations showed the students' creativity and enthusiasm. The event provided a unique opportunity for students to share their knowledge and insights with their peers, teachers, and parents. It also encouraged teamwork, critical thinking, and problem-solving skills.

Children of Grades 6 to 8 showcased creativity and innovation across various clubs. The Writers Club presented engaging stories, while the Art Club displayed stunning artwork. Abacus Club amazed everyone with their mental math skills. The Coding & Robotics club demonstrated various functional robots while the Science Club mesmerized students and parents with live experiments.

Overall, the Project Day, Club Fest & Art Expo at TGWS was a resounding success, providing a platform for students to showcase their creativity, knowledge, and skills. It was a testament to the school's commitment to fostering a culture of innovation, curiosity, and excellence.

Colour of The Month

Yellow signifies joy, happiness, optimism, caution, imagination, and hope. Our Kindergarten sparklers had yellow as their colour of the month. K1 Kiwi kids did crayon shaving on leaves. K2 Kiwi students did dal pasting on the chicks, K2 Litchi students did thumbprints on honey bees and K2 Strawberry students did glitter sprinkle on butterflies. K3 Kiwi students did colour powder pasting on bugs and K3 Litchi students did clay pasting on Tulips. Children's work was later exhibited on the Kindergarten display board.

Special Activity - Button Day

Button Day is celebrated for the hobby of button collection. Our Kindergarten Kids brought different kinds of buttons and decorated the pictures. K1 pasted buttons on Butterflies and they loved making that. K2 Kiwi kids pasted buttons on the Fishes, K2 Litchi students had fun pasting buttons on Mushrooms, and K2 Strawberry students did button pasting on a Caterpillar. K3 Kids made a button snail and K3 Litchi made a beautiful button peacock.

HPTM

“When parents and teachers work together, children thrive.” This month for the home PTM, teachers visited homes that are in and around Walaja. Children were very excited to see their class teachers in their homes. Teachers observed the child’s behaviour at home and parents were very happy to share about their kid’s daily routines. On the whole, parents were happy with their kid’s progress.

Field Trip

As part of their concept of Community helpers, our K2 kids visited the Post Office at Ranipet to learn about its operations. They had an exciting experience as they explored how letters and parcels are processed and delivered. Our K3 kids had an exciting trip to Amirthi Zoological Park, where they explored and learnt about the various animals in their natural habitats. It was a day filled with curiosity, learning and fun as the children connected nature to wildlife.

Outdoor Activity

Our fantabulous K2 kids had a "Spot the community helpers" activity, and visited the Carpenter, Gardener, and Security guards on our campus. The kids had real-time experience of their roles and responsibilities.

Talent Hunt Show

"Talent is nothing more than a pursued interest". Talents are hunted so that they will be a part of tomorrow. K1 kids had a "Fashion Parade". They dressed up as their favourite fruits and sang a few lines about them. K2 kids had a "Shake and Twirl" activity. Children were encouraged to dance to a song of their choice and dress up in their favourite costumes. K3 kids had to "paint a picture". They were given a picture of the animals. The kids painted it according to their creativity. Talents are always noted.

Activities

Kindergarten is all about nonstop activities. Our K1 sparklers had a 'Fruits and Vegetable carving' and they carved the shapes of various things using fruits and veggies. Our spectacular K3 kids had fun visiting the school bus. They enacted transport manners, practicing how to behave safely and responsibly during daily travel. We never compromise on activities.

Assembly

The favourite place for our Kindergarten students is the Assembly area, as they enjoy their friends as well as their presentations on the stage. Students of K2 Kiwi exhibited their general talents like dancing, singing, reciting rhymes & tables for the topic "Personal hygiene" in the first assembly for the month. In the following week, our K2 Strawberry children did an assembly on "Friendship". They performed dance, rhymes, skit and even showcased a story. During the last week of November, there was a certificate distribution for October month's talent hunt show in the Kindergarten assembly. The winners were excited and proud to receive their certificates. Hats off to their wonderful performances and hard work!

Student Article

From BFFs to "Who's That?"

Friendship is like your favourite playlist—it has those classic hits you could jam to forever, but sometimes, you find skipping a track or two. So, what happens when two besties start feeling like strangers? It's like forgetting the lyrics to a song you once knew by heart—familiar yet distant. Let's vibe through this curious situation and keep it chill.

Friendships don't always fade with a bang, but sometimes in quieter, subtler ways—like drifting continents, pulled apart by unseen currents. It might be the tides of new interests or the weight of growing responsibilities. Maybe it's the silent spread of distance as time and age shift priorities. Or perhaps, in some cases, it's the quiet, painful realization that they're now on different paths. This slow, almost unnoticed shift turns the closest bonds into distant memories. It's like "biting the bullet"—accepting that the bond you once shared has changed, and moving forward, even when it's hard to accept.

Remember those legendary days when you and your bestie were bread and jam? Late-night texts, endless laughs. Now? It's like you're strangers passing by, barely throwing a nod. Life's a trip—sometimes, no drama is needed, and you grow apart. New interests, different crowds, and suddenly, your partner-in-crime feels like a distant memory. It's like your favourite show that's lost its spark—still good, but not the same vibe. It's almost like "cold turkey"—quitting a habit you didn't want to let go of but knowing it's time for a fresh start.

Just because you've drifted doesn't mean it's over. Sometimes, a random text or party run-in brings you back together. And if not? That's cool too—every friendship has its season. So, don't stress. People change, doors open, and maybe that "stranger" will someday be a friend again. You might even end up "hitting the sack" together one night, laughing like the good old days.

Remember: even if a friendship fades, it's all part of life's adventure. You may have to "burn the midnight oil" figuring things out, but keep an open heart—epic connections are waiting just around the corner!

-M.Nethra
Grade 9 IGCSE

Teacher Talk

Being a Kindergarten teacher is much more than a career; it's a calling filled with heartwarming moments, countless challenges, and endless rewards. Every day in the classroom is a new adventure, where we lay the foundation for our young learners' educational and emotional growth. One of the most fulfilling aspects of my role is witnessing the transformation in my students.

At the start of the year, many are shy, uncertain, and still adjusting to being away from home. By the end of the year, they've blossomed into confident, independent learners who are ready to take on the challenges of the next higher grade. Watching their faces light up when they grasp a new concept or achieve a personal milestone is the greatest reward.

Of course, the journey isn't without its challenges. Every child is unique, and as a teacher, it's my job to meet them where they are. Some days are tough—whether it's managing different learning styles, comforting a homesick child, or juggling the myriad demands of the classroom. But those moments of connection, when a child truly feels seen and supported, make it all worthwhile.

As a Kindergarten teacher, I am constantly reminded of the importance of patience, empathy, and a sense of humor. These little learners have so much to teach us about resilience, curiosity, and the joy of discovery. It's a privilege to be their guide during these formative years. Teaching Kindergarten isn't just about preparing children for the next grade; it's about planting the seeds of a lifelong love for learning. It's a journey of growth—not just for the students, but for me as a teacher, too, and for that, I am deeply grateful.

Ms. Saranya V. V
Kindergarten Facilitator

Parent Talk

I am here to express my sincere gratitude to TGWS for providing a nurturing and stimulating learning environment for my children. Since joining TGWS, I have observed significant growth in their independence, confidence, and creativity. The school's emphasis on real-world connections and experiential learning has truly inspired them. We are particularly impressed by the warmth and dedication of the teachers. Their commitment to fostering a positive learning environment has made a profound impact on my children's educational journey.

We are truly honoured to be a part of the TGWS community.

-Mr. Sathish
Parent of Praghya (G3) and Thilak (K3).

Monthly Planner - December 2024

Date	Day	Event
4	Wednesday	Colour of the month – Red
4 - 6	Wednesday - Friday	School Cinema K1 : Roxy's and Melody's best day ever. No Place like our place. K2 : Roxy's and Melody's best day ever. No Place like our place. K3 : Try Try Try Again, The Big Race
