MILESTONE 1

The alumni meet - 2024 provided a platform for alumni to reconnect with old friends and teachers and reinforce the bond between the school and its former students.

MILESTONE 2

Book Fairs play a huge role in encouraging reading habits among children of all age groups. The opportunity to browse books of so many varieties and in a large number at a time was a wonderful experience for the children and parents who visited the fair.

Alumni Meet 2024-25

TGWS conducted its third Alumni Meet on 21st Dec, 2024. The event commenced with warm greetings from Ms. Sharon who hosted the event. Mr. Lathishkumar welcomed the Alumni and highlighted the importance of alumni in shaping the future of the school.

The highlight of the event was the open mike session organized by Mr. Jeelani Basha, where the alumni shared their experiences and achievements since leaving school. Their inspiring journeys left everyone motivated and proud. Students of Grades IX and XI performed dances and they received enthusiastic applause from the audience. Ms. Nalini proposed the vote of thanks expressing gratitude to all attendees and organizers for making the event a success.

The Sports department engaged the alumni in conducting a friendly Cricket match. It paved the way to recollect their school days. After a sumptuous 'get-together' lunch, the alumni left the campus with a lot of nostalgic memories. The meet provided a platform for alumni to reconnect with old friends and teachers. Nostalgic discussions about school days filled the air, creating a heartwarming atmosphere. The alumni meet reinforced the bond between the school and its former students. The memories shared and connections rekindled during the event will undoubtedly strengthen the alumni network and contribute to the school's legacy.

Book fair

The GeeKay World school organised a Children's Book Fair on its campus in December, 2024. The aim of conducting such a book fair was to inculcate a love for reading in children and expose them to various kinds of books.

19th Junior National Soft Tennis Tournament

19th Junior National Soft Tennis competition held at Punjab University, Chandigarh from 27th December to 31st December 2024. J. Trinity Devi of Grade 10 represented Tamilnadu and won a gold medal in the team event.

Colour of The Month

Red is delightful and vibrant!! It's wonderful to witness the diverse and imaginative projects. Our Kindergarten sparklers had red as their colour of the month. K1 Kiwi kids did red colour paper pasting on mushrooms. K2 Kiwi students did glitter sheet pasting on baskets, K2 Litchi students did satin ribbon pasting on flowers and K2 Strawberry students did sponge dabbing on trees. K3 Kiwi students did rice pasting on Red Riding Hood's house and K3 Litchi students did chart paper pasting on Little Red Riding Hood. Children's work was later exhibited on the Kindergarten display board.

Field Trip

As part of their concept of Fruits and vegetables, our K1 kids visited the Supermarket at Ranipet. They had an exciting experience as they explored the wide variety of Fruits and Vegetables. It was a day filled with curiosity, learning, and fun.

HPTM

“When parents and teachers work together, children thrive.” This month for the home PTM, teachers visited homes that are in and around Ranipet. Children were very excited to see their class teachers in their homes. Teachers observed the child’s behaviour at home and parents were very happy to share about their kid’s daily routines. On the whole, parents were happy with their kid’s progress.

Outdoor Activity

Our K1 students had a fun outdoor activity where they identified and sorted cutouts of fruits and vegetables. They followed the teacher's instructions to group them into fruits and vegetables. It was a great way for the children to practice sorting and learn about healthy food choices. The activity was both educational and enjoyable for all the kids!

Indoor Activity

Little ones of our fantabulous K2 had 'Classroom cleanliness' as an activity and learnt about keeping their classroom clean. This activity helped them learn responsibility and teamwork. In the charming world of our K3 farm corner, our little farmers planted seeds of imagination, tended to farm animals, and showcased their creative harvest.

Talent Hunt Show

A great talent finds its happiness in execution. This month we had a talent hunt show based on singing. Our cute little birds of K1 showcased their talent by singing rhymes on fruits and vegetables. Our Lightning K2 kids showcased their talents by singing rhymes about cleanliness. Little Chirpers of K3 dressed up and created a story about their favourite animal making the stage so creative and fun. Talents cannot be hidden.

Resource Parent

Ms. Jerry Sundar P/O Jake Oliver S (K1), had a fun session about "Fruits and vegetables". The children learnt their names, colours, and shapes. They also learnt how fruits and vegetables help us stay healthy. It was an exciting and enjoyable session. K2 had "Cleanliness" as a topic and Pranav's (K2 Litchi) Parent, Ms. Kavy Sri explained the same. Exploring the world of "Animals" our K3 kids had a wonderful and informative session with Ms. Fayika Fathima parent of Anisha Firdous (K3 Litchi). A big 'thank you' to our resource parents for enriching our classrooms with their knowledge.

Special Activity - Christmas Celebration

In the spirit of holiday cheer, our little artists from K1 to K3 have been busy creating delightful Christmas decorations that adorn our foyer. Let's take a festive stroll through the heartwarming displays. The foyer window is adorned with adorable snowmen crafted by our imaginative K1 kids. K2 Kiwi has transformed their space into a white snowline with glitter sheets pasted on Santa Claus. The festive spirit continued with K2 Litchi's contribution of exquisite snowmen adorned with white woolen. K2 Strawberry students decorated Christmas stars using glitter powder. K3 Kiwi has taken a unique approach with their Christmas tree. K3 Litchi presented their Reindeer, crafted with sponge dabbing. These vibrant and festive Santas radiated warmth and holiday spirit, showcasing the artistic talents of our young learners.

Assembly

The favourite place for our Kindergarten students is the Assembly area, as they enjoy their friends as well as their presentations on the stage. Students of K2 Litchi exhibited their general talents like dancing, singing, reciting rhymes & tables for the topic "International Mountain Day" in the first assembly for the month. In the following week, there was a certificate distribution for November month's talent hunt show in the Kindergarten assembly. The winners were excited and proud to receive their certificates. During the last week of December, our K3 Kiwi children did an assembly on "Christmas". They performed dance, rhymes, skit, and even showcased a story. Hats off to their wonderful performances and hard work.

Student Article

Truth is underneath all the lies

In a world where lies are a cover for reality, one needs to remember that the truth, no matter how well hidden, is always able to surface. Lies can temporarily comfort or shelter someone from judgment, but they cannot outshine the lasting might of truth. Mahatma Gandhi was correct when he said, "Truth never damages a cause that is just."

Lies usually spin a web of complexity to give the impression that the truth is distorted. Yet, like the morning sun piercing through a foggy horizon, the truth emerges clear and strong. "Three things cannot be long hidden: the sun, the moon, and the truth," Buddha reminds us.

When we choose to embrace truth, even amidst adversity, we align ourselves with authenticity and integrity. Lies may offer shortcuts, but truth paves the way to lasting trust and peace. "Honesty is the first chapter in the book of wisdom," wrote Thomas Jefferson.

Thus, behind every layer of deception lies truth, waiting to be discovered. Let us preserve it, for it is the foundation of justice, harmony, and a meaningful life.

Teacher Talk

It's a real pleasure to write about something that I believe is essential to the work we do as educator-Emotional Intelligence (EI). We all know teaching isn't just about delivering lessons and grading papers. It's about connecting with students on a deeper level, helping them grow academically, emotionally, and socially as well. And that's where emotional intelligence comes in.

Emotional intelligence is all about being aware of our emotions, understanding them, and learning how to manage them. It's also about being able to recognize and respond to the emotions of others. As teachers, our emotional intelligence has an impact on how we create and maintain a positive classroom environment. When we're emotionally aware, we're better able to handle the stresses of the day, manage challenges with patience, and respond to our students' needs in ways that make them feel supported and understood. It's that ability to stay calm under pressure, to listen when a student is struggling, and to offer a kind word when it's most needed. It's about creating a space where students feel safe, valued, and seen—not just as learners, but as people.

It's not just about us. It's also about our students. Imagine a classroom where students are not only learning maths or science, but also how to manage their emotions, understand the feelings of others,

and resolve conflicts peacefully. That's what emotional intelligence can do. When students develop EI, they become more self-aware, more empathetic, and better equipped to handle the ups and downs of life both in and out of the classroom. Whether it's managing test anxiety, working in teams, or navigating social challenges, emotional intelligence helps students stay calm, think clearly, and make better decisions.

As teachers, we can nurture emotional intelligence by creating opportunities for students to practice. Simple things like pausing for reflection, offering group discussions about feelings, or encouraging mindfulness exercises can make a big difference. These activities give students the tools they need to manage their emotions and relationships, helping them to thrive not only in school but also in life.

So, let's remember that emotional intelligence is just as important as academic intelligence in shaping the future of our students. By helping them build both, we're preparing them to succeed in ways that go far beyond the classroom. After all, it's not just about what they know—it's about how they feel, how they relate to others, and how they navigate the world around them. And that, I believe, is one of the most important gifts we can give to our students.

Primary School English Facilitator

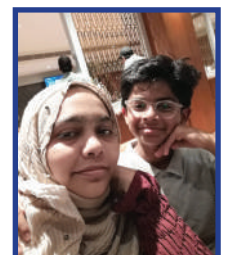

Parent Talk

I am glad I made the right choice last year by enrolling my kids in "The Geekay World School". I highly appreciate your leadership and the learning system at TGWS. The school focuses on the overall development of the child. After enrolling my kids in TGWS, I must say that I'm impressed by its academic excellence, well-rounded education, and community spirit.

The regular programmes, stage performances, and sports activities add a lot of value to student's enrichment. Thanks to the entire school management starting from the teachers and principal to the administrative team for your care and passionate effort.

Dr. Mohaseena Imtiyaz,
M/O I.Mohammed Izaan G-6,
I.Mariam Izreen G-1.

Monthly Planner - January 2025

Date	Day	Event
2	Thursday	Colour of the month – White
4	Saturday	PTM - 2
